

Something big is coming.

Introducing the all-new 7-seater
Atlas from Volkswagen.

Volkswagen

Life's as big as you make it.

With the all-new 7-seater Atlas, we thought bigger than we ever thought before. With three rows of seating, up to 96.8 cubic feet of cargo space with the 2nd- and 3rd-row seats folded down, plus nine available Driver Assistance features, it's roomy enough to fit your family and our big ideas.

"Giving it some distinction amongst its established competitors are a body-side crease that rises over the wheels and standard LED headlamps underscored by LED daytime running lights."

— Car and Driver **CAR DRIVER**
